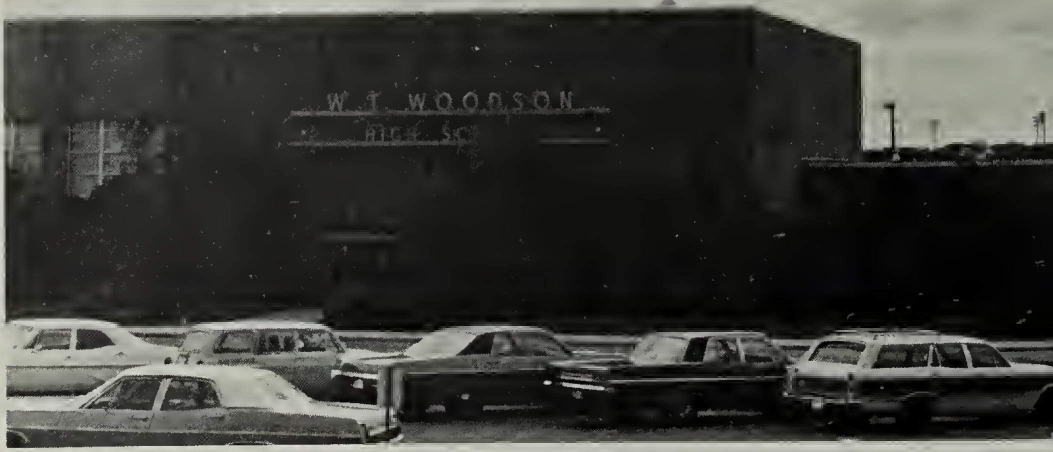
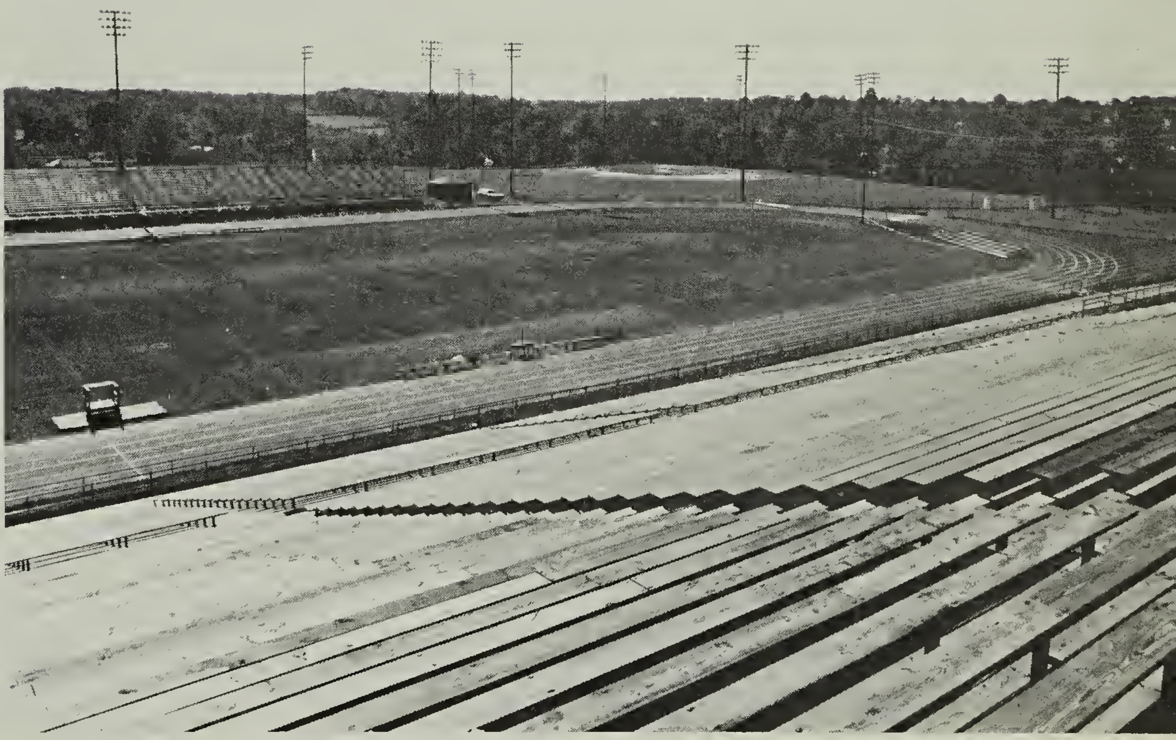
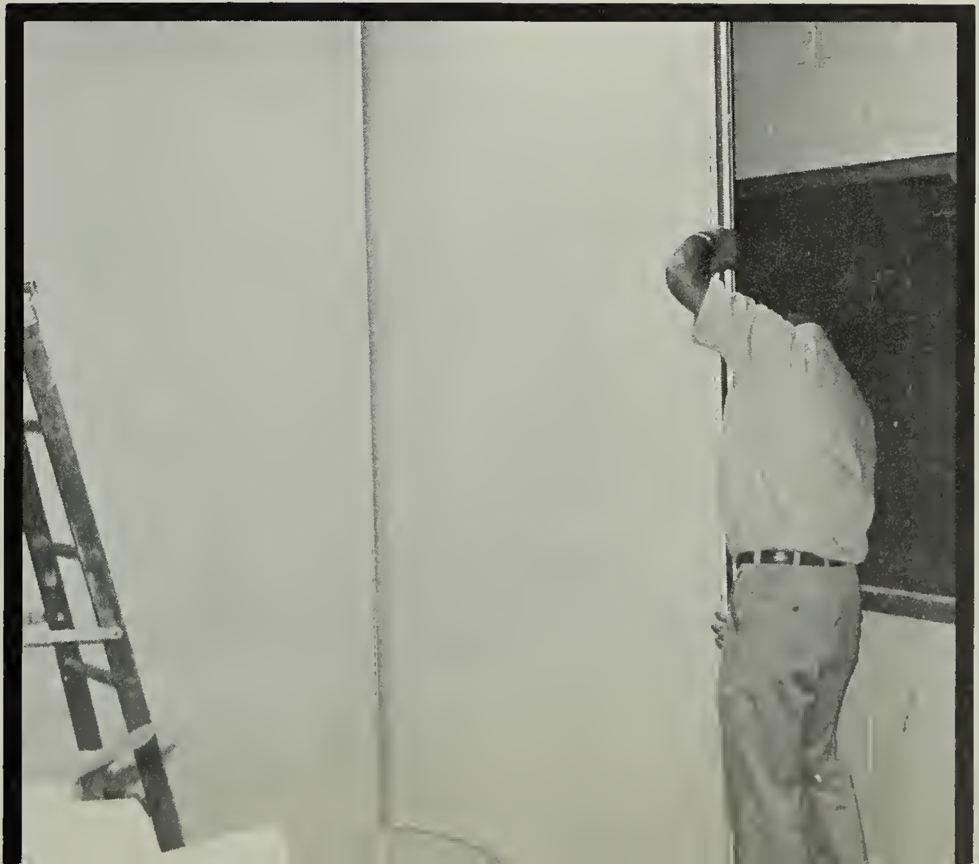
Woodson High School opened in September after five months of extensive reconstruction. The damage caused by Hurricane Agnes last spring, had for the most part, been repaired. In addition, several new features were added to the building. These included bright wall colors, fluorescent lighting, rooms without partitions, wall-to-wall carpeting, and air conditioned Quonset huts. Woodson was ready and waiting for her student's arrival.

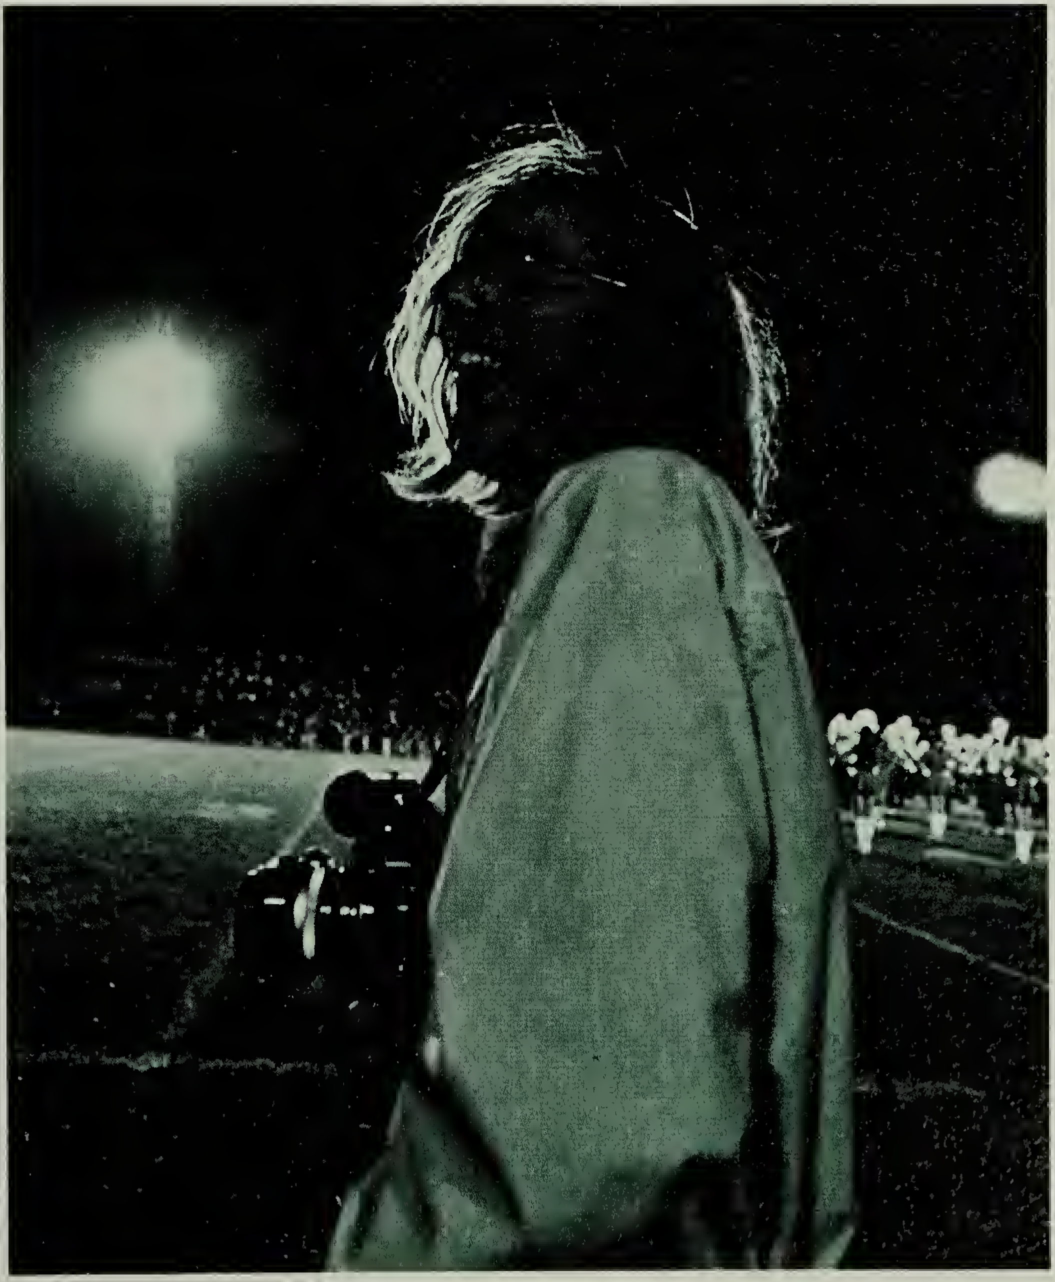
The reopening of the school warranted some celebration. Master of Ceremonies was Principal Mr. Phipps. Also participating were a color guard, Mr. W. T. Woodson, and the Pep Band. A T. V. cameraman was present to film the event.







Without people, alone, in pairs, or in large groups, Woodson would be no more than a physical structure. It is the emotions and interests of each individual which comprise the character of Woodson.



The Woodson student has a diversity of interests and is involved in a variety of activities. Some of these he pursues during the school day—in classes or in clubs and sports, and others he pursues in his free time—at home or out-of-doors. Involvement in activities is as important to learning and growing as is a formal education.

Football was synonymous with Friday during the fall of 1973. Students parents, teachers, and outsiders packed Woodson's enlarged stadium at every game. The fans responded with an enthusiasm that intensified with each victory. Football became almost a mania, and for good reason, the Cavaliers remained undefeated and captured the district title.

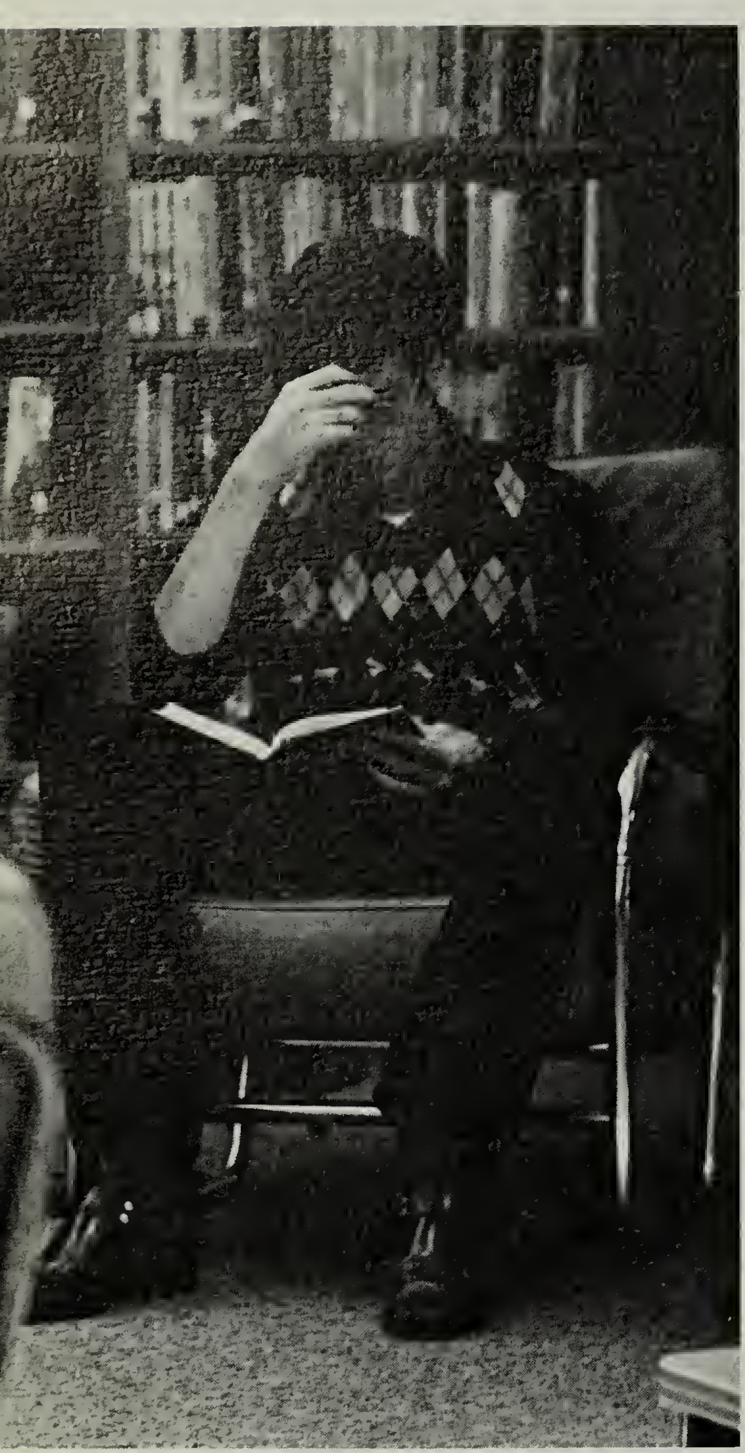
Academics at Woodson



This stuff is rough reading.

You can't catch me, I'm the gingerbread man.

Boredom does exist at Woodson.

Right On!

Students find different ways of spending their six hours at Woodson. As ever, there is a tendency to relax and let tomorrow take care of itself. Hard work is saved until the last possible minute, especially by Seniors. But whatever is lost in procrastination is regained in those last agonizing days and hours before a project is due.

ENERGY CRISIS 73-4

'74 will be a year remembered for the great energy crisis. Its effects influenced all aspects of our daily lives, including our school system. We can remember sitting through colder classrooms when the thermostats were turned down several degrees and standing at dark bus stops when we returned to daylight saving time. Many after-school activities were curbed so the heat in the school could be conserved. Because of the gas shortage, busing was kept at a minimum, canceling all field trips and late buses on some days. Fewer students were able to drive to school in the face of gas rationing. The price of gas became outrageous and filling stations crowded because of limited supplies. More and more people moved to mass transit as a way of transportation, and car pools became greater in number. Across the nation economy cars had booming sales, while big cars sat in the lots. However, despite the vast changes made both on a national and local basis, life at Woodson seemed virtually unchanged as the people here showed once again they could adapt to any crisis.

Story theater, what's that? Story theater was produced by the left wing players every day for two weeks during sixth period. Productions include Golden Goose, Little Peasant, Robber Bridegroom, Brementown Musicians, and Henny Penny. The director and actors improvise and add to these tales to produce children's fables Woodson style.

ONE FLEW OVER THE CUCKOO'S NEST was one of the Drama Department's greatest accomplishments. It combined emotional struggles for mental freedom with bawdy humor to create a chilling climax. The play was such a hit that an extra show was put on to benefit Children's Hospital.

Yes, I go because: It breaks the boredom. I don't really know why. It shows someone you care. You can get to know someone.

No, I don't go because: I'm not the dance type. No one's asked me. No one I'd like to ask. The guys are too stupid to ask. The bands are pretty tired. Too expensive.

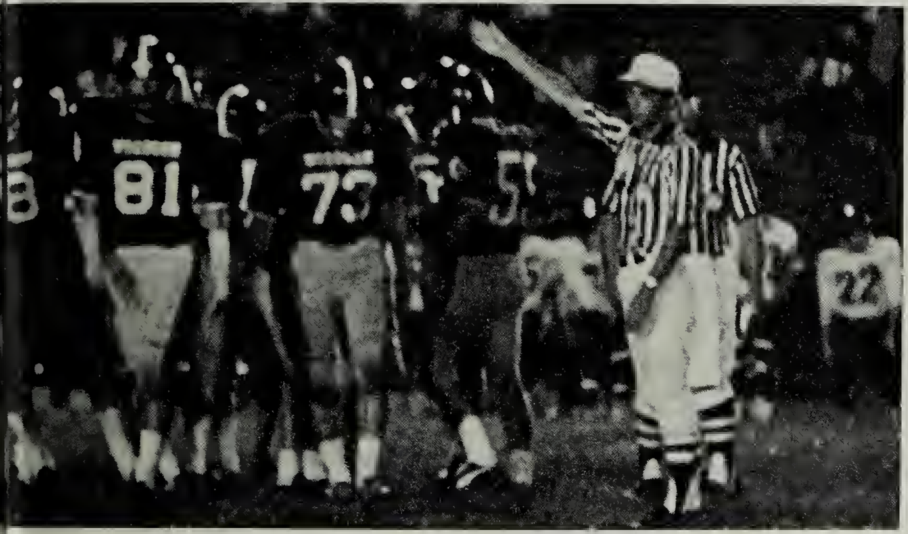
Fred Brooks is finally brought down in the defensive secondary.

As sophomores, the now mature Junior Varsity team performed well in league competition. The coaches feel that they achieved tremendous improvement from the team's record of last year. They showed great character in winning their last game on a last second field goal. When asked about the future, all they could promise was to show up for every game.



A dejected defense vows to dig in on the next series.

In their first year as an organized Cavalier football team, the freshmen spent much of the year on fundamentals. As the team progressed from week to week, new skills were practiced and perfected. Each game was a chance for the players to use their new skills. They played courageously throughout the season and are now prepared to face a new season of successes and failures.

Girls' Tennis Team

This years tennis team was blessed with much talent. With an undefeated season, ten girls advanced to district competition and from there six girls went on to regionals. With players like Nancy Neviaser who is undefeated in two years of tennis competition, Woodson will remain strong next year.

This year's team was a young one at the beginning of the season. The slate of games started with some of the strongest teams of a year ago. After the Da Matha and West Springfield games, the basketball team was forced to buckle down and work. As each district foe was played, the team gained confidence needed to face Robinson. The whole school realized that the team's success would be judged on the outcome of the game. Robinson was beaten, not once but twice. As the fans look back on this year's team, the late season successes will be most remembered.

Although the teams record was less than great, this year was a successful season in many ways. This years team was a young one and lacked the experience possessed by the opponents. Junior Varsity Wrestling

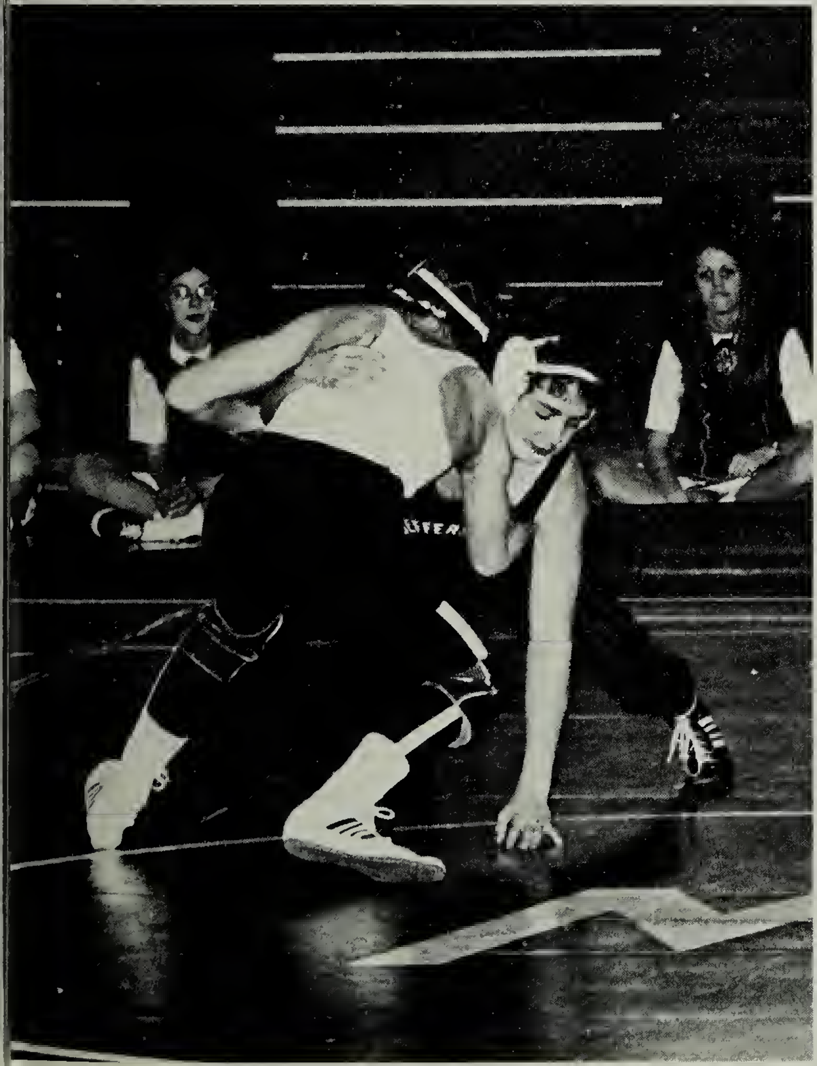
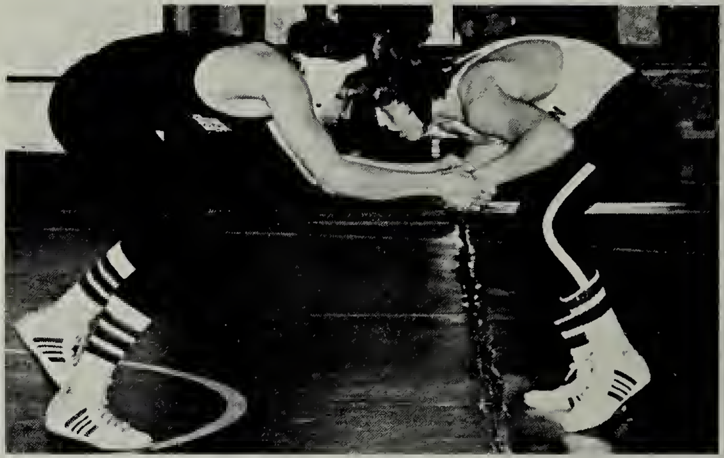
The term "junior varsity" is usually associated with underclass sports. However, in wrestling this is not necessarily the case. The wrestlers, regardless of age, are placed on a team according to their abilities. Thus, there is a strong inner competition for the right to wrestle varsity.



Freshman Wrestling

Freshman Wrestling was a new sport to Woodson this year. The matches were held on Saturday mornings. For these reasons, Freshman Wrestling received little student attention. These young men worked hard each day in practice to prepare not only for this year but for the future.



Indoor Track

Indoor Track was another new Woodson sport. Practices were usually held outside, but because of unpredictable weather conditions, meets were scheduled in the gyms at Robinson or Fairfax High Schools. Indoor track gave runners a chance to get in shape for their spring season.

Girls' Varsity Basketball

Playing hard all year, these girls take great pride in the game they play. For a long time they have sought a little recognition from the students, many of whom have never seen a girls' game. Most just assume that the girls' game is nothing in comparison with the boys. These girls play very well and are just waiting for fans.

VARSITY
BASEBALL

Varsity Baseball

With most players returning from last year's district winning team, Woodson stands to be a major contender again this year. With strong pitching and consistent hitting, Woodson's team will be hard to keep out of state competition.

WOODSON
HIGH SCHOOL

Junior Varsity Baseball

On the first day of practice, close to eighty players showed up hoping to play well enough to be chosen from the crowd. The Junior Varsity is very valuable to the baseball program because it gives the boys competitive experience needed to play Varsity.

Varsity Track

Varsity track serves two major purposes. It is a season for the serious track runner to improve and display the skills which he has worked on in cross country and winter track. It also gives other athletes from other sports an opportunity to work out and keep in shape.

Varsity Soccer

This year's Varsity Soccer team had much work to do in order to return to the regional playoffs where they were second a year ago. Under a new coach, Mr. Oliverio, and several American University all-Americans, this year's team did work hard. Many hard hours were spent working on the skills needed to play the game well. Although they play without the fan support of most Varsity sports, they represent Woodson very strongly.

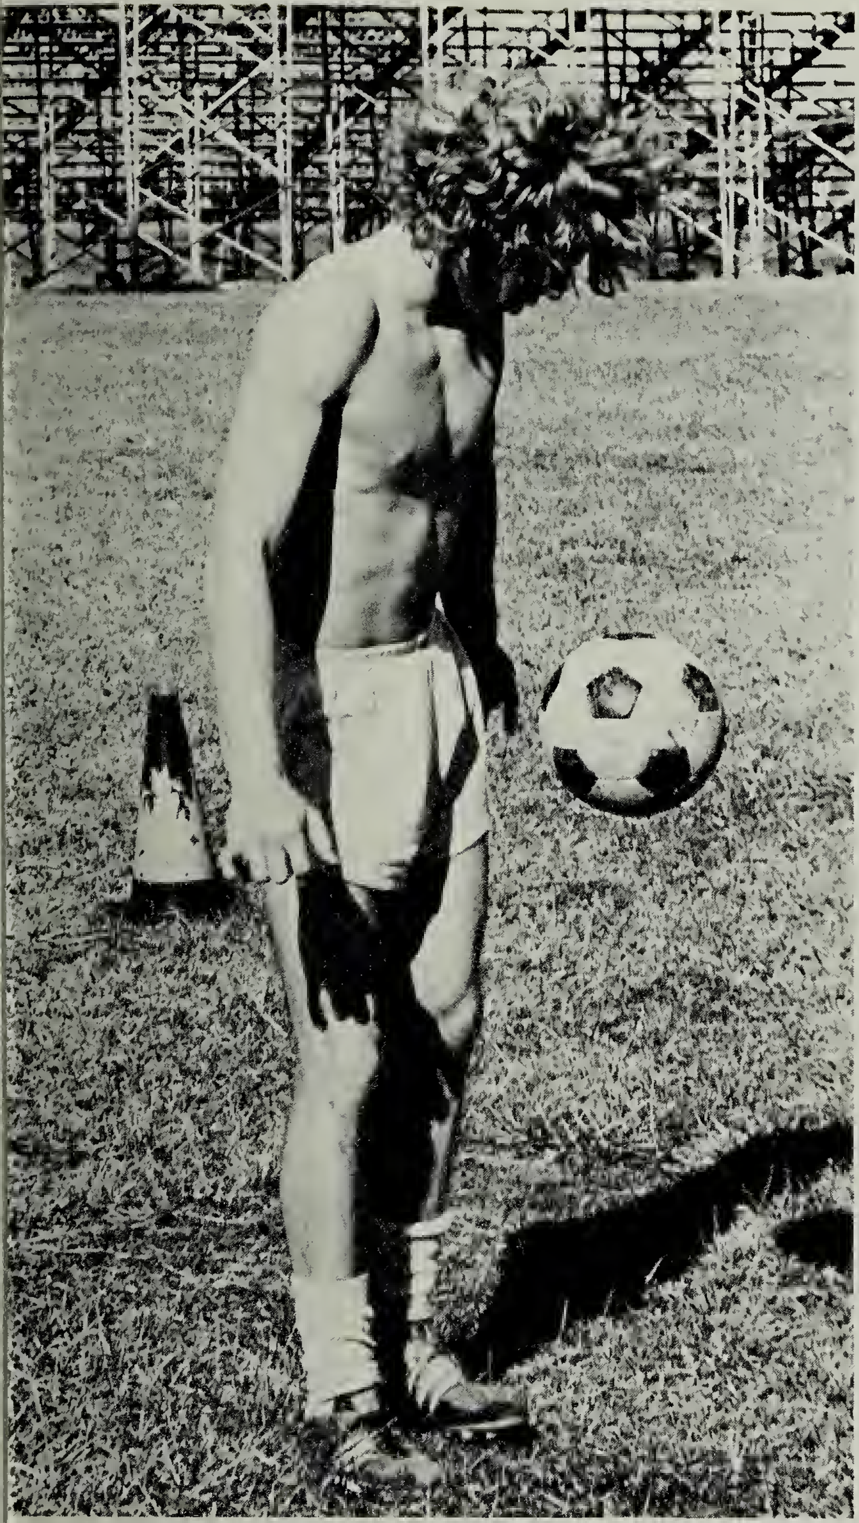
No Joe, kick it with the other foot.



Would you believe elephants fly?

Dribbling drills improve soccer skills.

Look ma, no hands.

His T-shirt said, "Carlin the STUD."

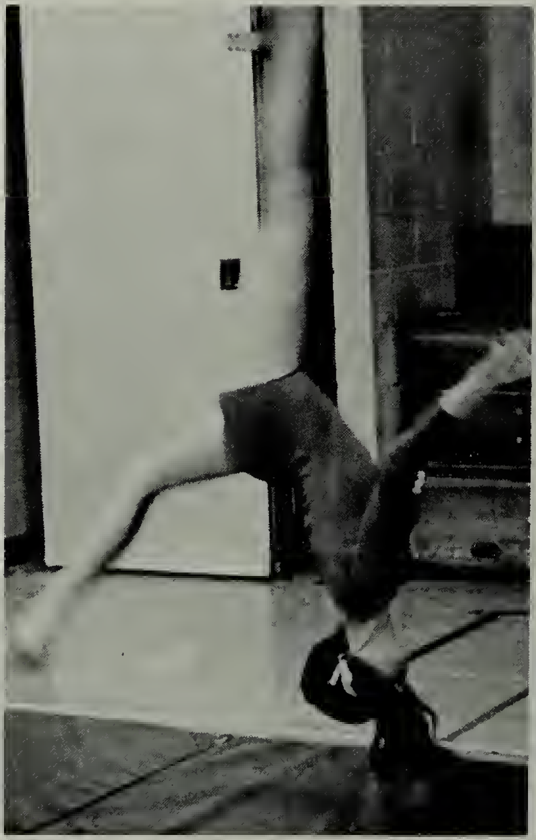
Varsity Tennis

Tennis requires skills which develop through long hours of practice. Forehands and backhands are put together with a lot of effort to produce a winning team.

Swimming

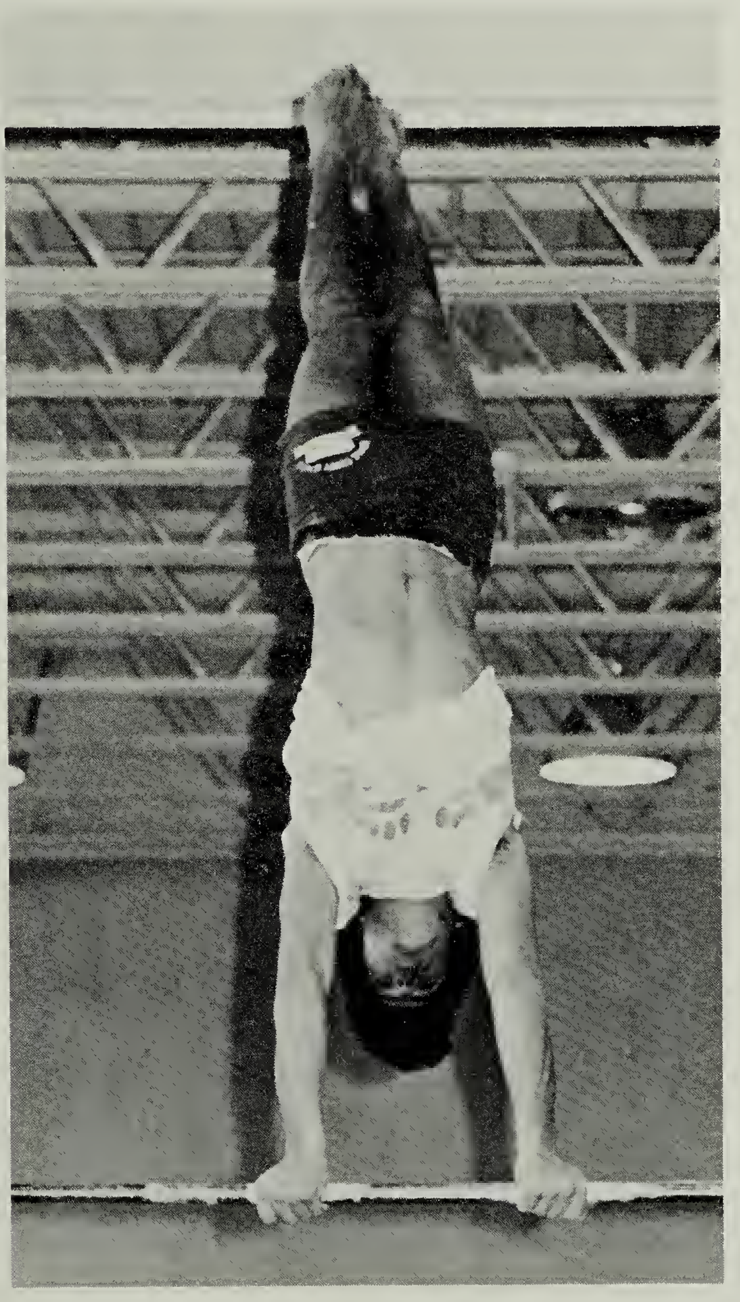
The Swim Team experienced a typically good year led by some really great talent. Swimmers like Margorie Moffit explain why Woodson is number one in swimming.

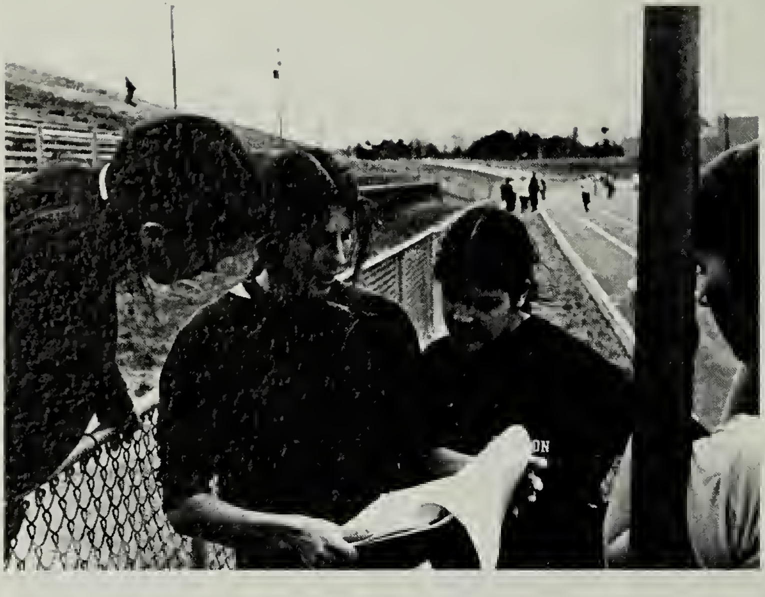
Girls' Gymnastics



Boys Gymnastics

Working long hours to improve their personal skills, these boys prepare for competition. Working individually, they not only have to prove something to the judges, but also to themselves.





Girls Track

With great enthusiasm, these girls compete in many grueling events. Although the work is hard, they all feel a sense of pride when they win a meet.

It takes long hours of hard work to publish a school newspaper. The Cavalcade editors and staff members attend activities, hold interviews and have to keep up with the latest happenings. After they gather information, the stories have to be written, laid out, and sent to the printers so that Woodson students can be informed. The Cavalcade has increased production to twice a month and has done an excellent job.

All Men's Eating Team

American's favorite pastime is eating. True to this tradition the All Men's Eating Team popped up overnight in our all American School. Woodson has expert face stuffers who practice everyday to keep in shape. Finally Woodson has a serious club that knows how to get down to business.

Members: Steven Mitchell, Tim Schmies, Bruce Smith, Tim Edwards, Pat Causey, Wayne Hussa, Brien MecDowell, Jeff Centwell, Keith Ashely, Ed Dinkins, Dougles Thompson, Randy Myers, Curt Coltrene, Richard Szymczyk, Bernhard Steinbech, Bob Leonard, Lee Pittman, Bill Denfeld, Denis Coakley, Greg Barry, Doug Franklin, Skip Hull, Bill Miller, John Sutherland, Steve Butler, Drew Sheckler, Jim Trumbull, Chris Spencer, Mett Pesztenzaniec, Jim Halligen, Pet Shields, Howard Heppe, George Buzzy.

Page Staff

Both artistic and literary talents of Woodson students are put to use in the Page. The Page is a creative art-literary magazine printed twice yearly. It gives students who have the creative itch the chance to express themselves. The Page also lets the students, as well as interested faculty members, learn the mechanics of publishing.

Keyettes

The Woodson Keyette Club is composed of active girls who are concerned about their school and community. With a little shove from their officers, these girls help stuff Christmas seals at the TB Center and act as big buddies on Saturday mornings to children with learning disabilities. The teachers work centers are decorated by the Keyettes in the hope that it will put the teachers in holiday spirits. The highlight of each year is the annual trip to the International Convention.

It's Academic

The "It's Academic" team represents Woodson on WRC-TV's "It's Academic" show. They compete for scholarships by answering questions faster and more accurately than the other two competing teams. Their knowledge of English, history, math, science and world events must be extensive and readily available. Last year, Woodson's "It's Academic" team was one of the top six of eighty-one teams in the area.

First Row: Mary Beth Brown, Robin Anderson, Stuart Lending, Michael Johnson, Ralph Mason, Walter Grant, Mrs. Carmicheal (Sponsor).

Debate Team

The Debate team has had one of its best years ever. According to one opponent coach, we have a real cracker jack team. As a result, every time the Debate team was successful Mrs. Huggett, the coach and sponsor, awarded them with boxes of Cracker Jacks. Partners are picked at the beginning of the year and compete together throughout the year. All tournaments are invitational. Everyone has had successful tournaments this year. Have fun this summer with your cracker jack prizes.

THESPIANS

Thespians, a national organization, is the "honor society" of high school drama. Thespian members are active in drama classes and school theatrical productions. Drama Club and Thespians are the main corps of drama club. It takes time and talent to put on theatrical productions, and Thespians have both.

Drama club members are often seen running around the school in costume or practicing lines on stage. They produce a fall play and this year are holding a spring play as well. This year they sponsored a magic show. To promote drama in the school the club holds workshops and other drama-oriented activities.

Bridge and Chess Clubs

The Bridge Club "dummies" meet every Tuesday to play bridge. The atmosphere is not one of tense concentration, but of relaxation. There is no ranking or great competition. Teachers as well as students practice shifty shuffling while having a good time.

First Row: Mike Writz (President). Second Row: Allan Willner, Meg Franklin, Linda Johnston, Jeanne Rumlik. Third Row: Stuart Lending, Collen O'Shaughnessy, Brenda Stolte, Sandy Kerr, Karen Tiemens, David Gomez. Fourth Row: Karl Bakken, Bill Saue, Bill Sauer, Jerry Merwin.

Ski Club

"Now keep your feet spread out, with the tips of your skis just about meeting. That is the snow-plow position," said the instructor.

Swish! A more advanced skier sped by. The student grabbed for the instructor.

"What was that?" the would-be skier cried out, trembling in fear.

"Nothing to worry about," said the instructor. "Just a skier."

"Gosh," the student said in admiration. "Do you think I'll ever be that good?"

"No sweat," said the instructor.

The Ski Club is for everyone who wants to enjoy the freedom and grace of skiing. Everyone is welcome—from rank amateur to the experts of expert. Skiing is a form of relaxation that can satisfy everyone. The beginning skier can have a feeling of accomplishment the first day out and there is an infinite variety of stunts and styles to keep the expert forever challenged. This year the ski club decided to go on as many weekend trips as possible instead of day trips. This permitted more concentrated skiing.

Fifth Row: Joey Sterner, Lynn Montgomery, Kathy Sullivan, Wayne Hussa, Curt Coltrane, John Sutherland, Tim Bukes, Bob Leonard, Todd Shields, Doug Murray, Steve Butt, Mark Smith, William Smith, Richard Albright.

Every Thursday the Ice Skating Club heads for the Fairfax Ice Arena. Going as a group, they not only get group rates, but they also have more fun. The Ice Skating Club offers a weekly chance for recreation at a low cost. This year is the first time Woodson has had an ice Skating Club, and the members feel it is a worthwhile addition to extra-curricular activities.

Math Team

$$\lim_{a \to o} \frac{\sin (a + b) - \sin a}{a} = ?$$

Can you solve that problem in 30 seconds or less? If you can, drop in on the Math Team. Super quick figuring is one of those rare sports where the outcome of the team depends heavily on individual success alone. When competing with other schools, representatives of each school are given the same problems (one problem at a time) to solve. There is a time limit and difficulty assigned to each problem. Members of the team also practice after school to work on their speed and of course accuracy. Have fun!

First Row: Kitty Howells, Stuart Lending, Steve Pratt (Captain), Doug Hardt (Treasurer). Second Row: David Huli, Mike Johnson, Carol Cheaney, John Hansen, Will D. The Future Scientists of America is an especially relevant club in this year of the Energy Crisis. America's success through history has always been linked to its technological advances. What better way to solve our Energy Crisis than to harness student talent? The Future Scientists of America try to interest and develop the talents of students in the various fields of science. There are interesting discussions and displays and anyone thinking about a career in science might want to check out the Future Scientists of America.

F.B.L.A.

Future Business Leaders of America is a co-curricular business club organized to give students an opportunity to develop leadership so that they can participate more effectively in the business and community world. This program helps one to increase his business knowledge through active participation inleadership, financial, social, community and service activities. The highlight of the year's program is preparing to take part in the local and state leadership conferences held in the spring.

Stage Crew

These magnificent (believe it or not) young men are the backbone of Woodson's major play productions. After three years of intensive training, they now exhibit complete mastery of the art of turning lights on and off. Their dexterity on ladders and ropes can only be surpassed by that of the ape family. The future abounds with possibilities for these agile young men.

National Honor Society

The Woodson chapter of the National Honor Society is one of many in the United States. National Honor Society members are chosen for the ability they have demonstrated in scholarship, leadership, service, and character. Although National Honor Society is basically an honorary organization, the Woodson members operate a tutoring service, help with curriculum, and hold monthly meetings. Many leaders of tomorrow are members of the National Honor Society today.

Tri-Hi-Y

This was a year of change for the Woodson Tri-Hi-Y. The three Tri-Hi-Y's combined to form one single club. They also dropped their Y.M.C.A. affiliation. After making these changes, the Tri-Hi-Y attended to its regular activities. Tri-Hi-Y is a service club that provides school and community services. Some of their activities included work with the March of Dimes and a big sister program.

Student Action for Education

WANTED TEACHERS! Why would anyone want to be a teacher? Why would anyone bare himself to the tortures thought up by those devils known as children? If, in the course of your school career, you have seen the light and found the answers to these questions, you might be interested in Student Action for Education. If you have gleaned the answers to those questions, you undoubtedly realize that teaching is a strenuous but rewarding profession. The Student Action for Education Club is comprised of people interested in becoming a teacher. The Student Action for Education Club has participated in a convention in Roanoke and sponsored a faculty tea, but has not been able to student teach as a result of the energy crisis.

Students for Environmental Action

A group of dedicated environmentalists has become a decisive force in planning and planting the school grounds, as well as moving for action in the community. Students for Environmental Action have been attending zoning meetings, working to curb water, air, and noise pollution, lessen erosion, save wildlife, and encourage the purchase of potted Christmas trees. They have landscaped one of the courtyards so that it can be used as a classroom or for relaxation. The students have also made plans to plant evergreens in front of the school to screen the noise from Rt. 236.

Photography Club

The Photography Club is the place for aspiring photographers. It gives novice photographers a chance to learn the tricks of the trade. Practice makes perfect, or so they say, so club members take many pictures trying to learn the ins and the outs of this art. As the year goes on, improved techniques result in better pictures.

Latin Club

Want to buy a slave? If you do investigate the Latin Club. Dedicated to the Roman living style, the Latin Club holds slave auctions and celebrates Roman festivals. This year their Christmas party (Saturnalia) was held late because of weather complications. The Latin Club banquet was held in the Spring. It included a slave auction—female slaves were auctioned off—and all the traditional garb with laurel crowns and flowing robes.

Art Union

Many talented artists can be found in Woodson's art union. During the fall the art union plans their Christmas bazaar and start putting their talents to work making crafts and paintings to be sold at the bazaar. Art union members look especially forward to spring and their annual trip to New York for cultural enrichment. The art union provides a place for aspiring artists to get together to exchange ideas and experiences and to have a good time.

Assistants

Assistants perform valuable functions for the school. Department assistants aid teachers in grading papers, mimeographing work sheets and tests, and lending a sympathetic ear to the trials and tribulations of the teaching profession. The Student Administration assistants deliver the "white passes" to quivering students. Library assistants check out materials, catalogue books, records, and filmstrips, and shelve books.

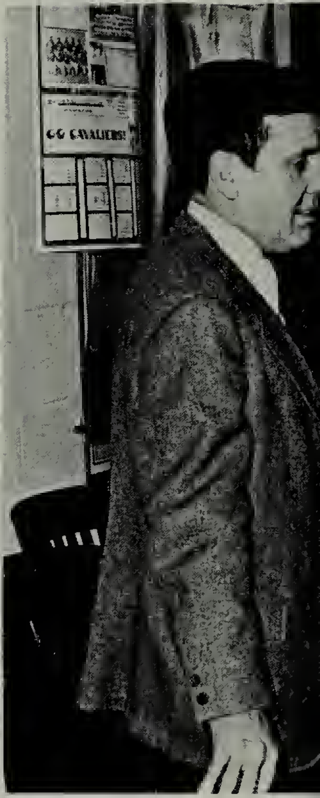
FACULTY

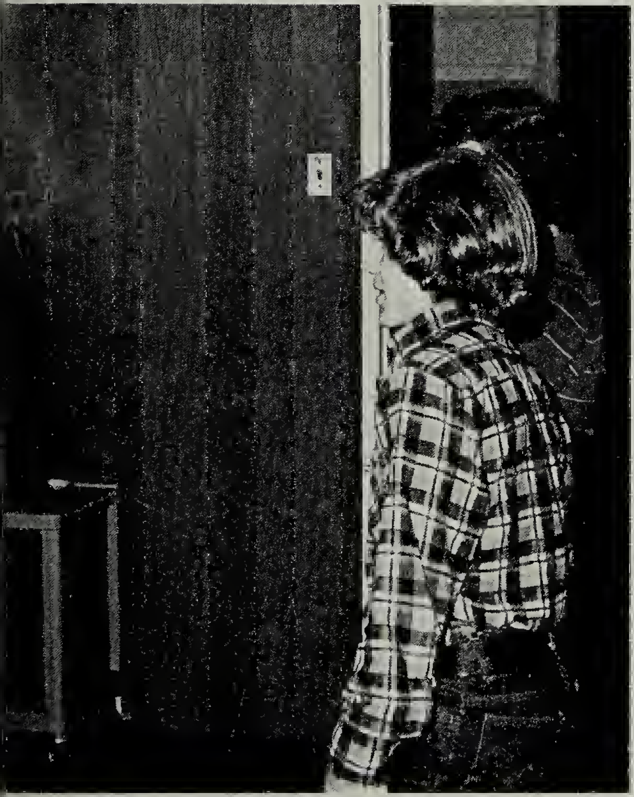
Mr. Phipps, Principal

"Good morning, this is Bob Phipps your principal . . . I just wanted to welcome you folk back to Woodson." This is the greeting with which Mr. Phipps welcomed us back to a partially new school and a new school year.

Mr. Phipps takes as much interest in Woodson's activities as the students do. He can often be seen pacing the sidelines at fall football games or attending drama and choral presentations. Being principal is not all fun and games though. It is also dealing with administrative problems, approving programs and ideas, dealing with irate students and parents, and a million other jobs that pop up every day. Mr. Phipps worked hard to have Woodson open on time this year. Being a principal is a twenty-four hour a day job. Mr. Phipps deserves our thanks and gratitude.



GO CAVALIERS!



Mr. Biliak

Administration

Traffic signs are needed in the student administration office. A constant flow of students, faculty, and custodial staff surge through Student Administration for assignments. Students arrive for late passes and early release passes. Locker problems are taken to Student Administration. Parents, students, and other assorted persons with questions related to Woodson are referred to Student Administration. Student Administration workers are jacks of all trades and, by necessity, masters of all.

Secretaries

No school is complete without secretaries. The main office, finance office, student administration, ADP, and guidance all have secretaries to answer the phones, make appointments, type, and do other secretarial duties. The efficiency of the secretaries helps the whole school to run more smoothly.

English

"I ain't got none likin' fer grammer nor English." This is the attitude and ability many incoming freshmen display to members of the English Department. The freshmen and sophomore English teachers try to increase the students' writing ability as well as introduce them to the classics and modern literature. A semester writing course is required sometime during the junior or senior year. Juniors and seniors then have the option of choosing from semester courses such as Greek Literature, Utopias, American Values, and Grammar. Hopefully, after four years in Woodson's outstanding English Department, a student will be able to say "I do not like grammar, and English does not interest me."

Social Studies

The Social Studies Department offers courses which span the globe and the centuries. In addition to the required world history or geography courses, United States history, and Virginia and United States government, the Social Studies Department offers such courses as sociology and psychology. Psychology, a semester course, is new this year and has already become quite popular. Every student at Woodson runs the gamut from world history to United States government on their way to becoming more aware of the world around us.

Mathematics

If math is your best subject (or your worst) the math department offers the course for you. It offers algebra and geometry to meet math requirements. Advanced courses such as calculus and functions are offered for students who are more enthusiastic about math. Math is necessary throughout life so the math department performs an important function. Thanks to math teachers, everyone knows that 1 + 1 = 3.

Students absorb the atmospheres of other countries as they enter the halls of the language department. Foreign languages are taught by songs and games as well as by repetition and testing. Advanced students find it challenging to tune into local Washington radio stations which broadcast soap operas in foreign languages. At all language levels trips are made to local restaurants to indulge in gourmet foods and learn a little more about the customs of other countries.

Science

Experiment 1

Problem: Is it possible to escape alive after a year of teaching biology, chemistry or physics to "future scientists?"

Procedure:

1. Spend the first two weeks of school impressing your students with the necessity of safety.
2. Be sure to know where all fire extinguishers and first aid kits are kept, so that when some bungling student chops off a finger, blows off a hand, or crushes a foot with a four pound brick, you will be able to act quickly and efficiently.
3. Above all use all your cleverness to keep students from playing with the water faucets.

Data: For an extremely hard experiment the above procedure has worked admirably. From the data it is possible to say that by using extreme caution it is possible to come through the year with no loss of students or teachers.

Conclusion: We've made it!!! We are alive. Yes, with luck it is possible to safely teach biology, chemistry and physics. We now have two months to rebuild our strength and prepare for next year.

Music

Do, re, mi, fa, so, la, ti, do. The music department involves large numbers of students in choral and instrumental courses. Future musicians, as well as students out just for the fun of it, gain knowledge and experience playing and singing in groups. Some sympathy must be extended to the music department. After all, they have to suffer through all the sour notes of progress. Do, ti, la, so, fa, mi, re, do.

Library

The library provides a place for relaxation and rest for the many students who use it daily. The quiet reading room is one of the library's nicest features. It serves as a refuge for students seriously cramming for a last minute test. Unfortunately too many students abuse their library privileges by not checking out their books and never returning them. This results in an estimated loss of 1800 books a year. The librarians hope that students will be responsible enough to check out their books in the future.

Art

The genius of Woodson students is at work in the art department. There are four basic courses this year. Painting and drawing ranks first in popularity with crafts running a close second. The other two courses are jewelry making and sculpture. The teacher gives the assignments by concepts which the student is supposed to incorporate in his work of art. The freshmen take a comprehensive course which enables them to dabble in each area for a nine week period. This helps them become accustomed to critical appraisal. Of course there is always the anguished face of an artist whose masterpiece has gone unappreciated.

The sweet aroma of burnt muffins, the shatter of fallen dishes, and the banging of pots and pans filter out of the home economics rooms. Males as well as females learn to cook and sew. For specialized learning, semester courses are offered including gourmet foods, interior design, and sewing with knits. Senior homemaking has become very popular among the seniors. It appears football players can fumble in the kitchen as well as on the field. Onward to victory and perfect apple pies. . .!

Business

Many people think that the students in the typing classes spend all their time practicing drills, but they also have fun typing pictures of pumpkins for Halloween and ships for Thanksgiving. The students in the business department typed this year's student directory. Business teachers provide their students with practical knowledge that will help them succeed in the world of big business.

The vocational program offers students a good opportunity for obtaining a skill and experience.

Special Services

Students often come to the people in special services for help. Janitors are frequently visited by embarrassed students who have jammed their lockers or need something to be cleaned up in a hurry. The nurse in the clinic is beseeched by dying students whose only cure is to get out of class and go home. The cafeteria ladies are immensely important to Woodson's students. They continually stock the vending machines so that students can pick up quick energy between classes. They also operate the much talked about cafeteria lines. Woodson's students would not be able to function without these services.

Guidance

The Guidance Department can help a student if he has a problem. It can also give him a problem if he doesn't have one. When a student has a complaint about a teacher or a course, or has a question about a college, he always heads for Guidance. Usually a student has to wait to see his "great one", but usually no one minds, because they get out of class and especially because Guidance is air conditioned in the summer.

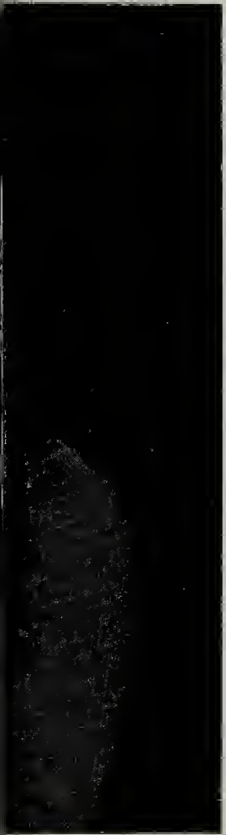
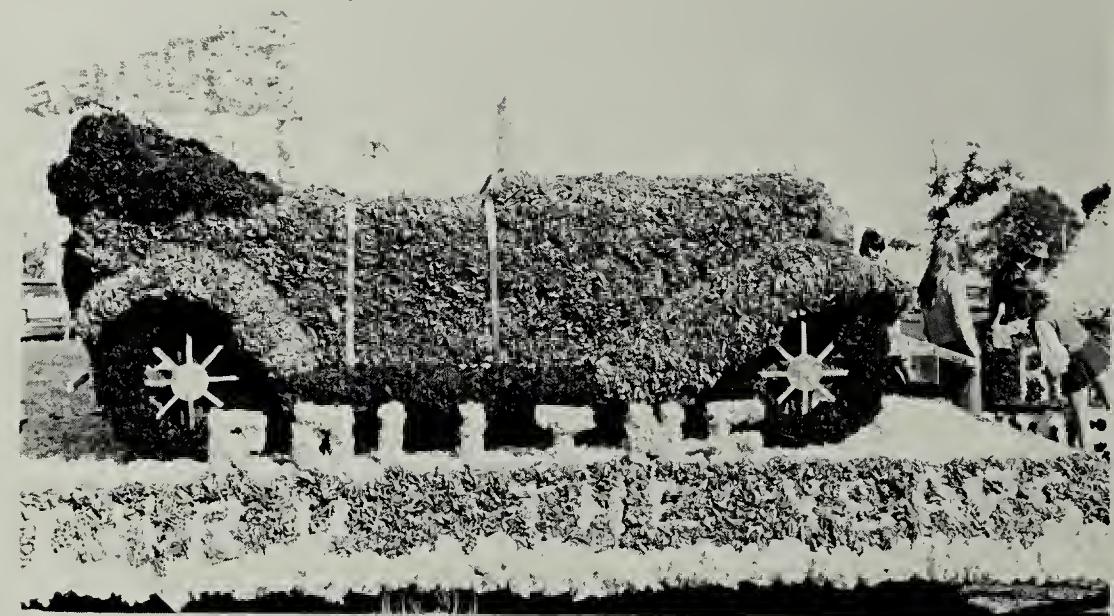
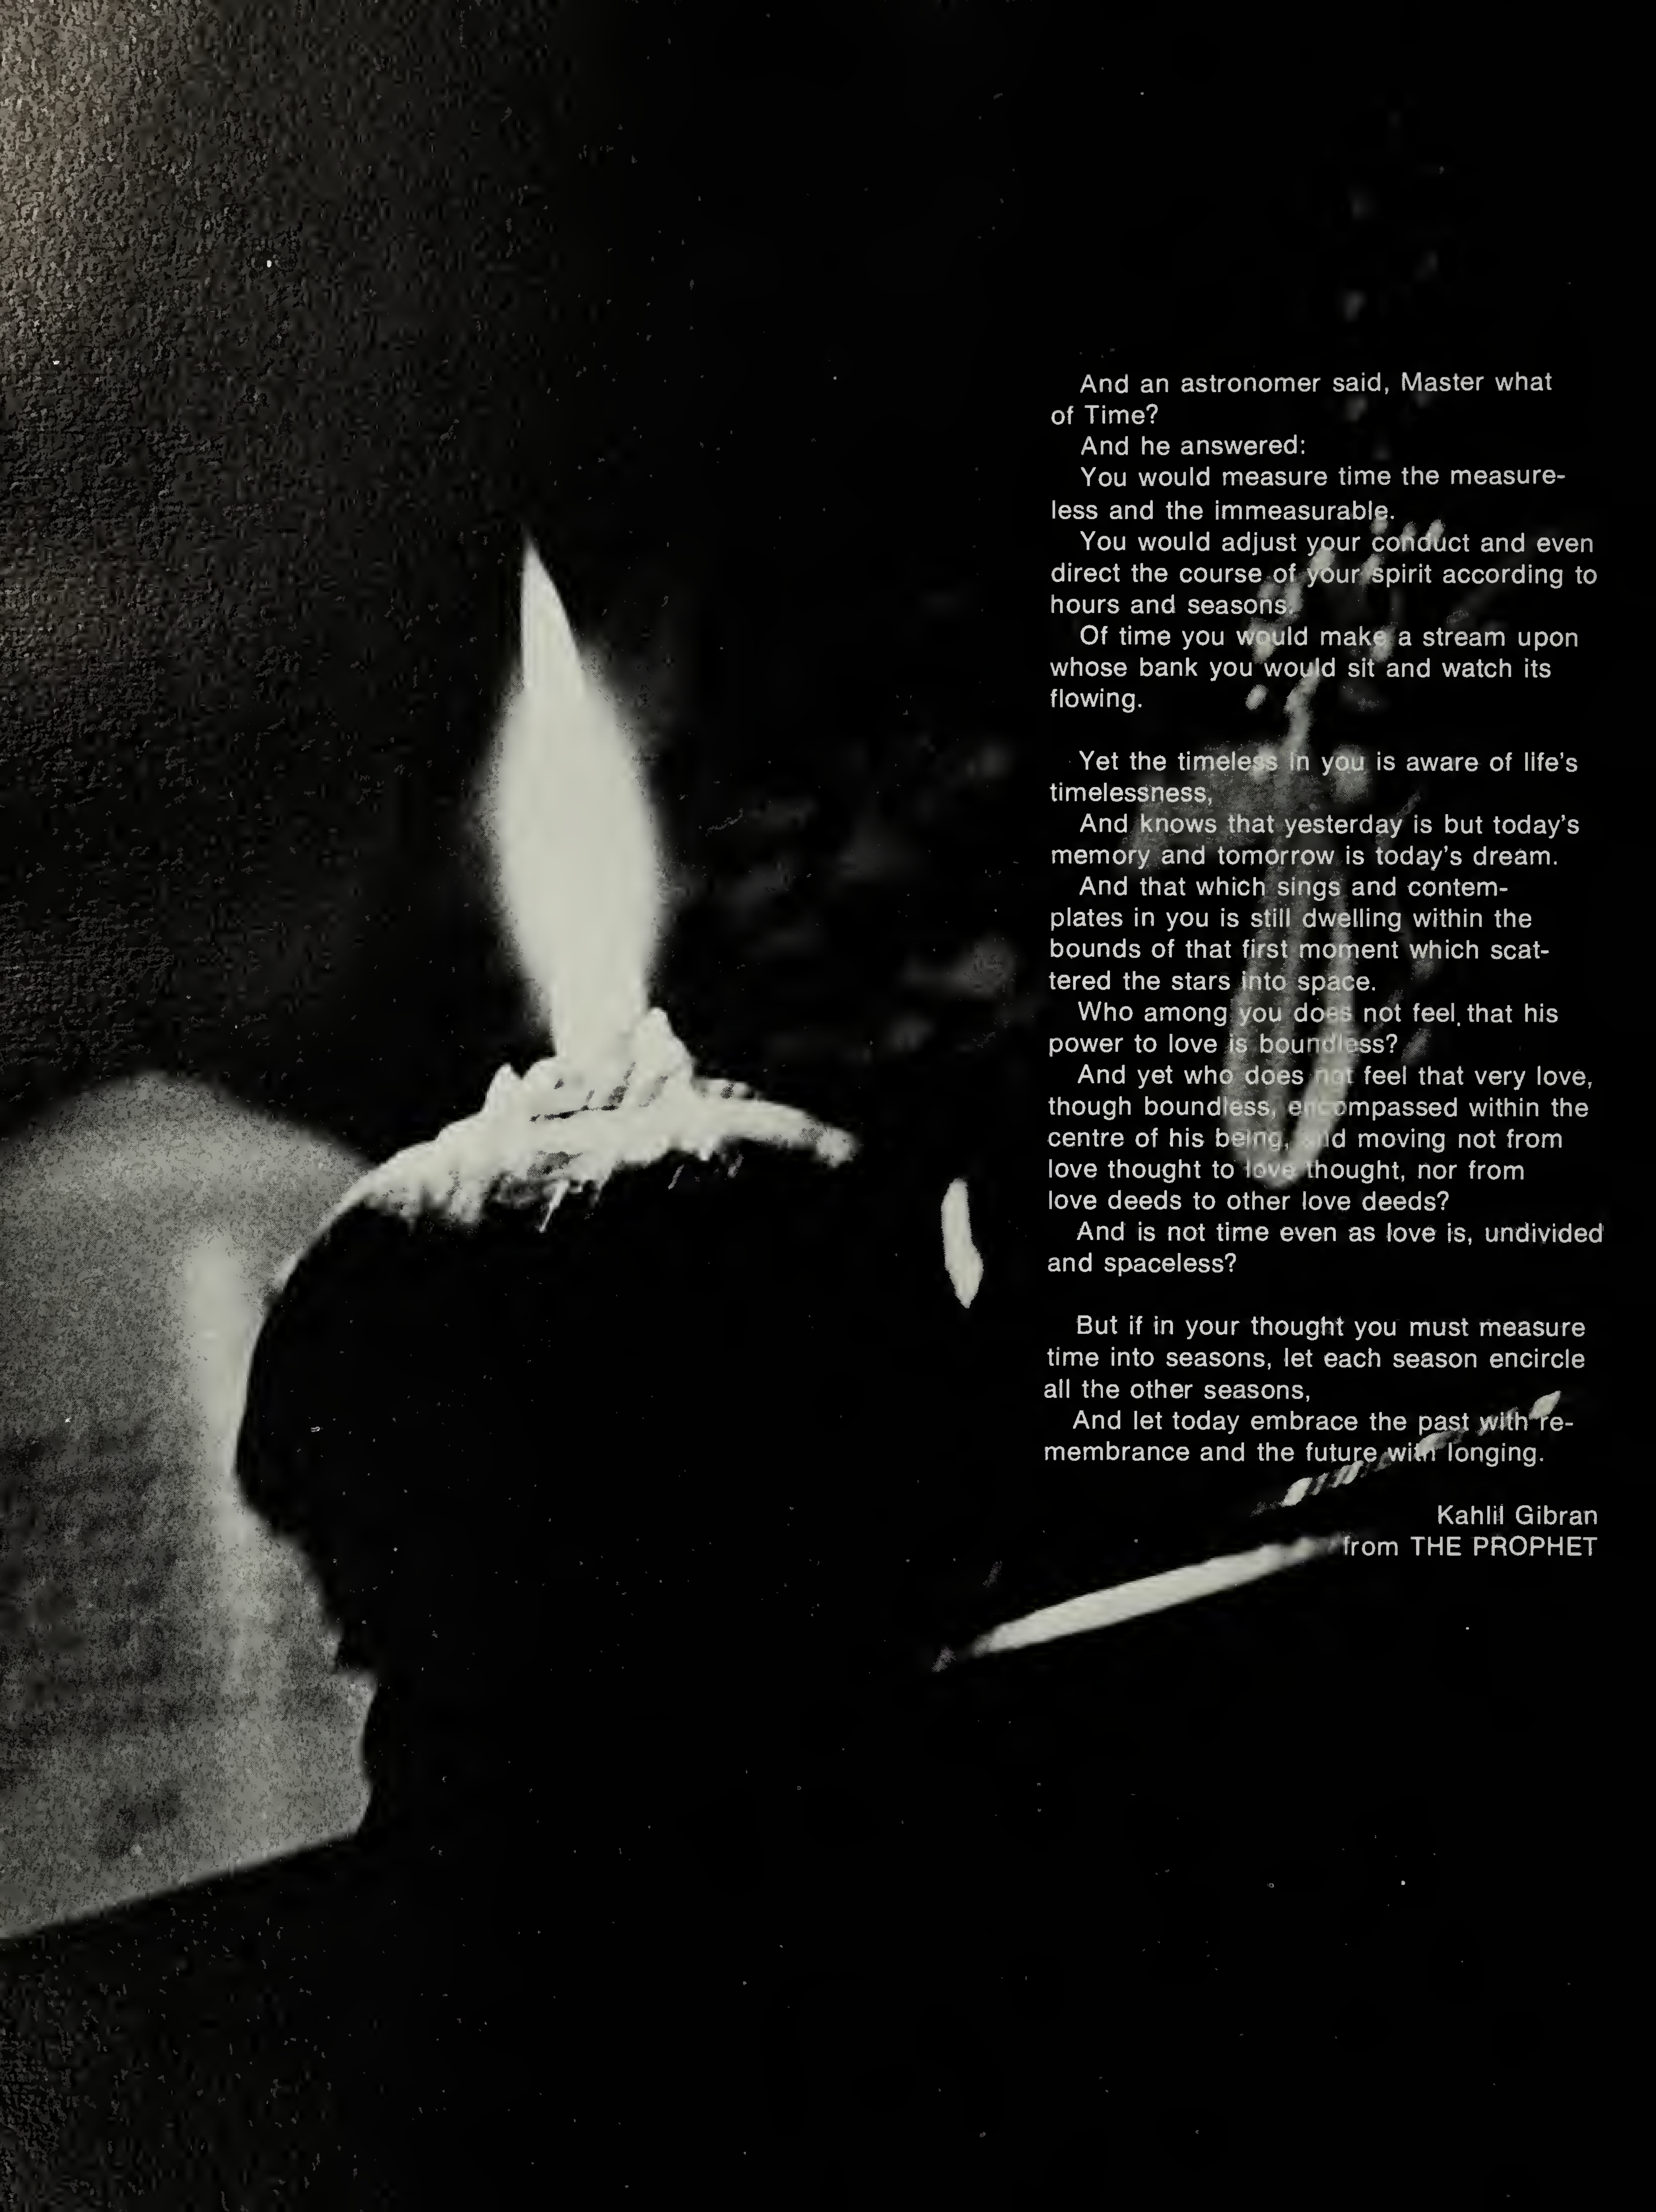
PEACE THROUGH
BROTHERHOOD



LATINO





And an astronomer said, Master what of Time?

And he answered:

You would measure time the measureless and the immeasurable.

You would adjust your conduct and even direct the course of your spirit according to hours and seasons.

Of time you would make a stream upon whose bank you would sit and watch its flowing.

Yet the timeless in you is aware of life's timelessness,

And knows that yesterday is but today's memory and tomorrow is today's dream.

And that which sings and contemplates in you is still dwelling within the bounds of that first moment which scattered the stars into space.

Who among you does not feel that his power to love is boundless?

And yet who does not feel that very love, though boundless, encompassed within the centre of his being, and moving not from love thought to love thought, nor from love deeds to other love deeds?

And is not time even as love is, undivided and spaceless?

But if in your thought you must measure time into seasons, let each season encircle all the other seasons,

And let today embrace the past with remembrance and the future with longing.

Kahlil Gibran
from THE PROPHET

The Chinese Water Rumble Presented by The Stage Crew

Starring: Hal Kopeikin
Also Starring: Andy Ragland
Co-starring: Mark Kopeikin
Also Co-starring: Mike Macario
Guest Starring: Greg Grant

Uncle Chuckie sets the ground rules for the rumble. "On the count of three go, and remember, no squirting below the belt."

The battle rages on.

Cornered like a trapped animal, Hal lashes out viciously at his predators.

Mourning for the dead.

The junior year is a year of decisions and fun. Juniors have to start making decisions on colleges and careers. This year has been eventful for the juniors. They tied for first place in the float contest. The dances they sponsored turned out well and made money. The Junior Prom and class rings highlighted the year.

Kathy Ansheles (Senator)

Being a sophomore brings on many new responsibilities. With one year of high school and one float behind them, they were able to put together a fantastic float. The sophomore class sponsored a movie and a spaghetti dinner. This has been good preparation for the activities next year's junior class will undertake.

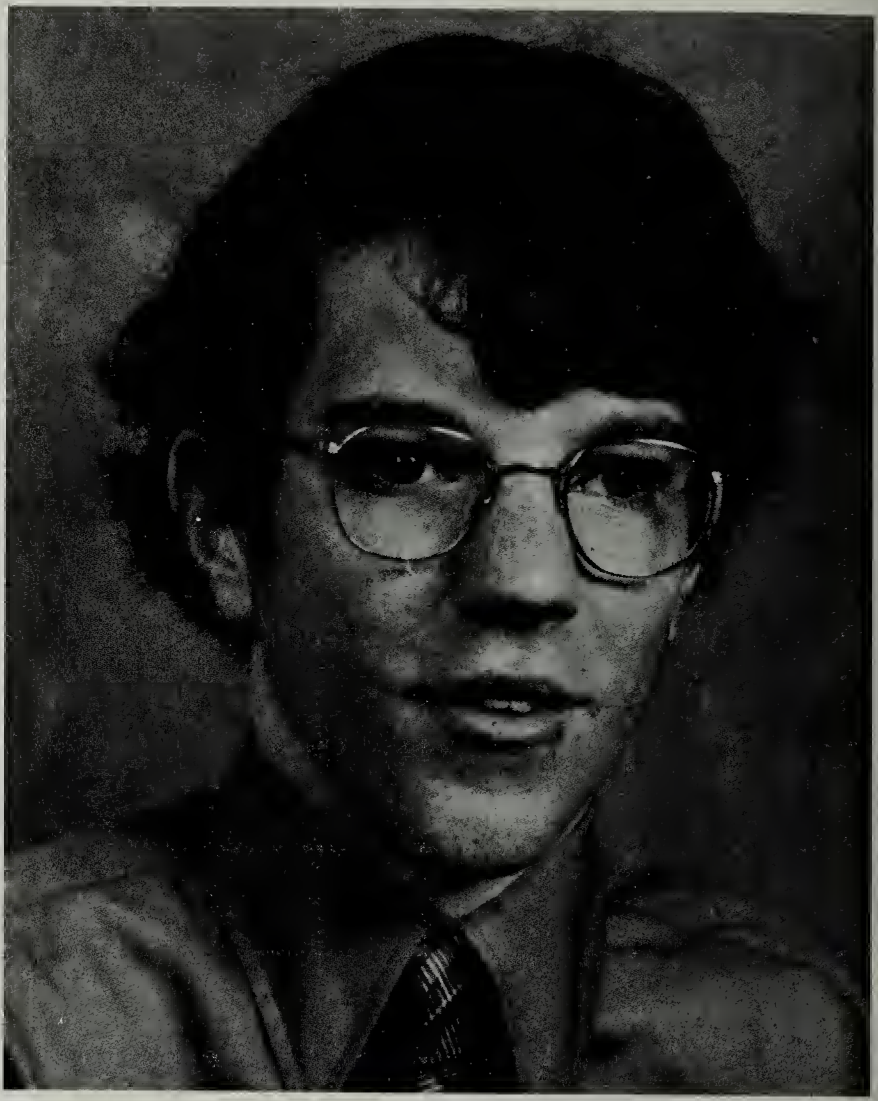
Woodson students are dum-founded at their teams ability.

Freshmen

Ruth Oh (Senator)



Bob Johns (President)

Freshmen have a hard time. They come to a new school and immediately have to elect officers and organize their class. Their first major class effort is the float. Gradually the freshmen feel at home at Woodson and become a part of the Woodson generation.

Being a freshman certainly is not easy. The first week is the worse. Upperclassmen direct them to their classes on the third floor and try to sell elevator passes. Once they make it through the first week it gets a little easier and they look forward to becoming sophomores so they can carry on Woodson tradition.

1973-1974 EVENTS TO

At School, Across the Country, Throughout the World

An end to the mid-morning or afternoon hunger pangs — Woodson began an experimental vending machine program. No longer were students forced to sit for ten minutes in homeroom.

Sinai Peninsula (Occupied by Israel since 1967)
BATTLE FRONTS
EGYPT

The Arabs and the Israelis continued their fighting over territory. Few Americans were concerned until the conflict resulted in the Arab embargo of oil.

The energy crisis — the shortage of gasoline forced many people to make use of public transportation. Lines at gas stations were often blocks long, forcing commuters to wait for an hour or more. Even then the customer was not guaranteed a fill-up or any at all.

Public opinion favored impeachment of the President. The Watergate investigation uncovered more information which aroused suspicion regar-

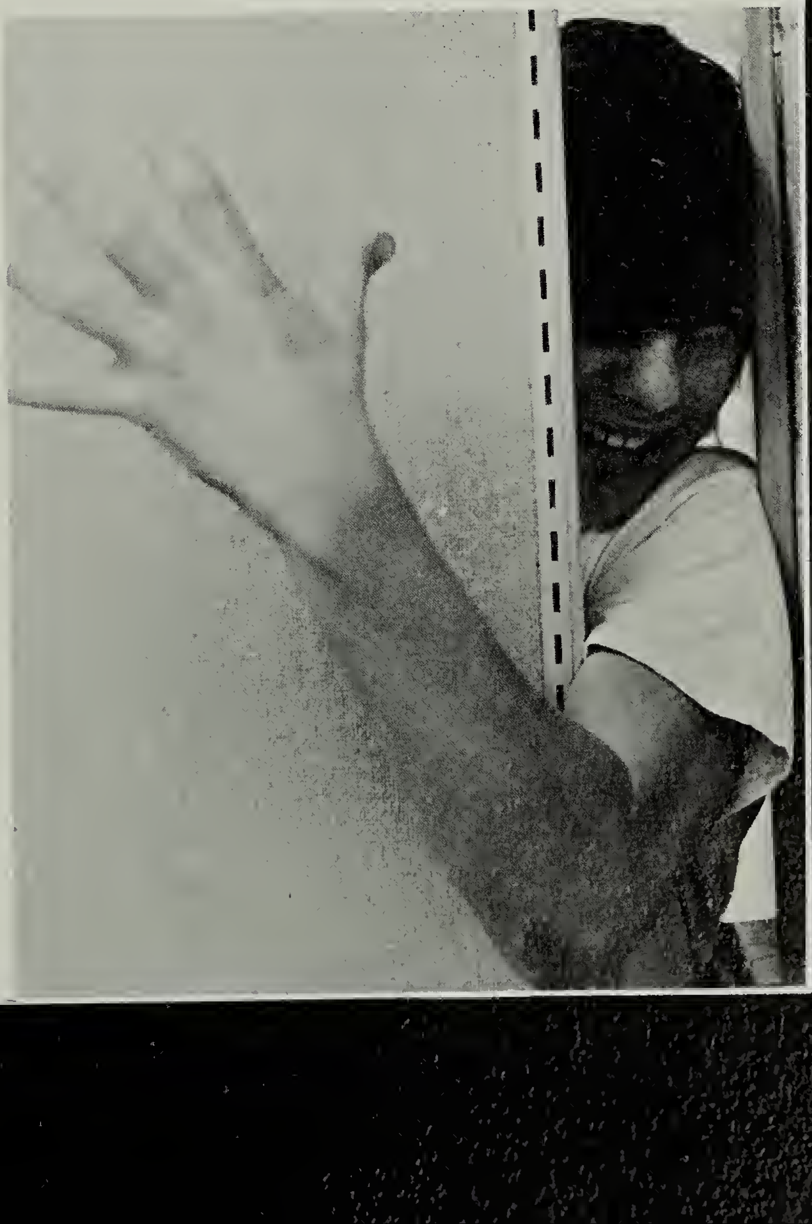
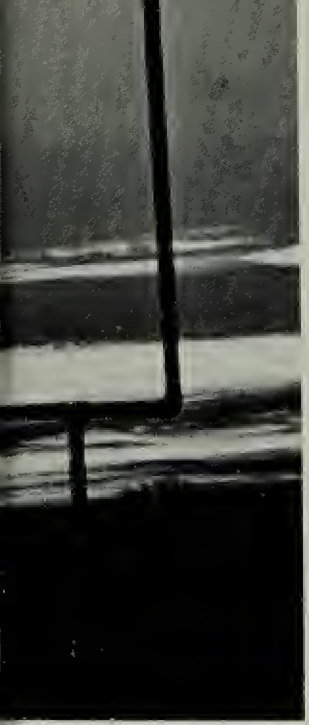
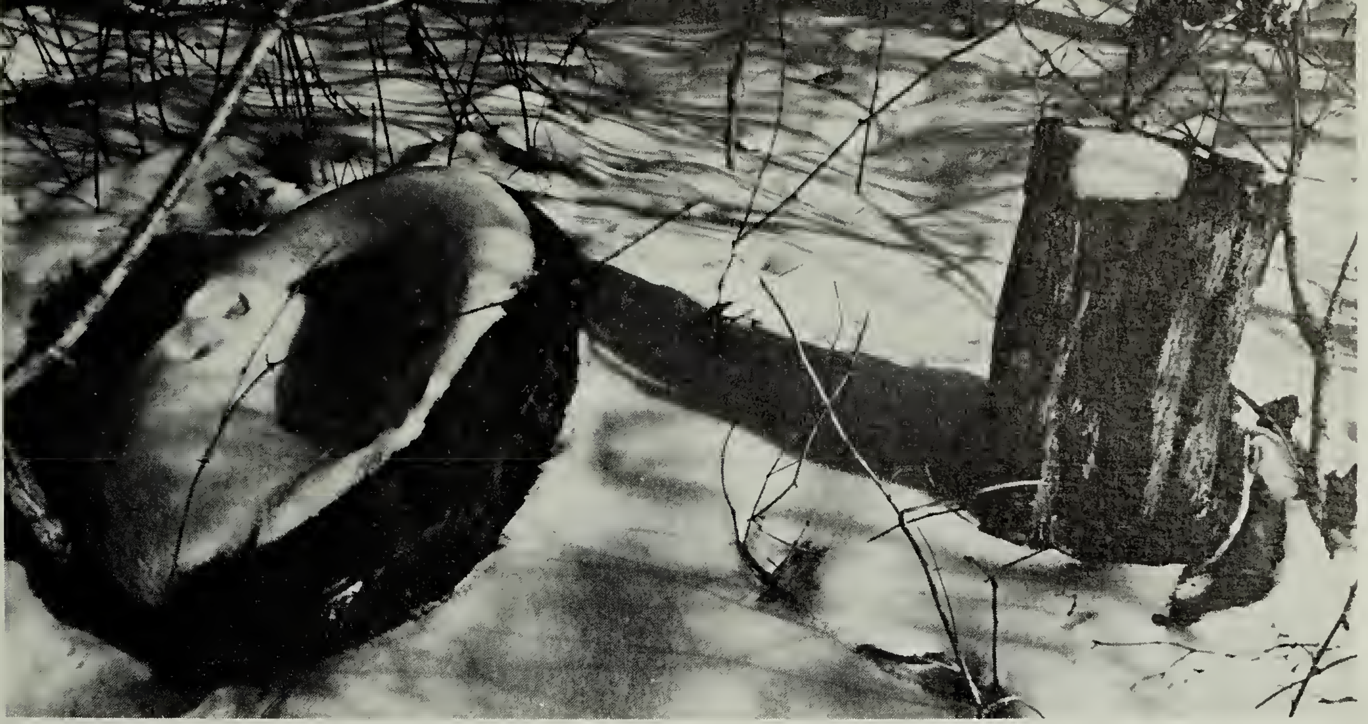
ding Richard Nixon's integrity. Vice President Spiro Agnew resigned after he was charged with income tax evasion. Gerald Ford became the new Vice President.

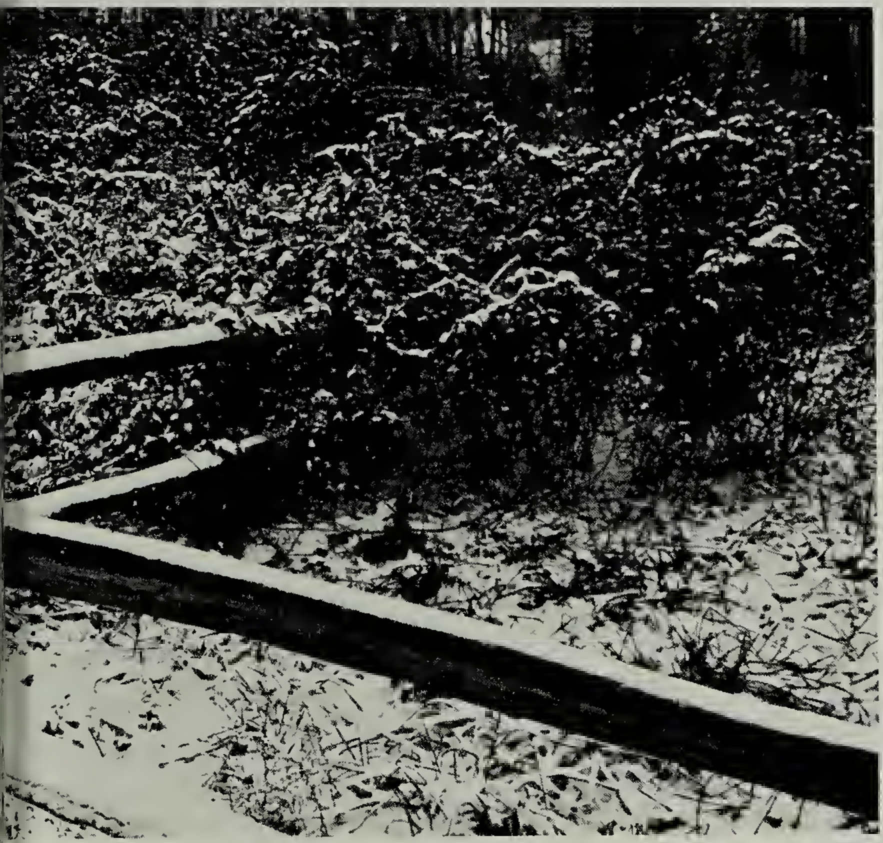
The long awaited partitions for the English and foreign language wings finally arrived, But, still it was often difficult to concentrate in class when the room next door turned on a blood and thunder movie. However, on the other hand, at times the commotion created a welcome diversion.



Nature surrounds us everywhere and provides us with the basic elements of our existence. Yet our involvement in academic and social activities often precludes our appreciation of nature's beauty and tranquility.







Some of us associate, "the future" with the immediate — the end of the school year and summer vacation. However, to others it suggests new directions in life, continuing education, seeking employment and exploring the outside world.

THE ARROW
WHAT DOES IT MEAN?
THE ARROW IS A SYMBOL.
GENERALLY IT INDICATES A DIRECTION.
FOLLOW THE ARROW AND SEE WHERE IT LEADS,
MAYBE INTO SOMETHING UNFAMILIAR WAITING TO BE EXPLORED.
IF UNSATISFIED WITH YOUR DESTINATION, CURVE YOUR PATH A BIT
OR TURN IT AROUND
FOR ARROWS CAN GO
IN ANY DIRECTION.

To A Dude who is pretty cool have Fun over the summer and don't get To crocked
and Follow the arrow of Good Fortun. stay cool and maybe I'll see ya sometime
and prove I have a GTO with a 426 hemi and Blow the doors off
you Good Luck and have Fun.
